

Protecting Your Passions

About Us

Vigilant's mission is to design and create the highest quality wine, cigar, gun and fly rod storage products in the world, made from the best and most beautiful wood species on the planet. Our pledge to our customers is to back each and every Vigilant product with industry leading customer service and product knowledge. All of Vigilant's products are 100% guaranteed.

Our Name

For over 130 years, the Baltimore Clipper Schooner *Vigilant* proved to be one of the most reliable commercial sailing vessels ever built. For the people at Vigilant, it represents our ever-present attention to detail and a commitment to producing quality products that stand the test of time. We have adopted this name, Vigilant, to assure our customers that we are conscientious in every aspect of our business and dedicated to our customers.

Our History

Vigilant, Inc. was founded in early January 1995 by company president Charlie Griffiths in his Portsmouth, New Hampshire garage. The company's origins were in cigar-cabinet building and as the company grew, the product line grew with it. In 10 years, the business expanded from two employees to almost 40 and now manufactures cigar cabinets and humidors, cigar display cabinets, humidor electronics, wine racking and custom wine cellars, wine cellar design, wine cellar doors and fine sporting equipment cabinets for clients across the United States and abroad.

At the forefront of Vigilant's philosophy is our commitment to *craftsmanship, lasting quality, exceptional design,* and most importantly, *our dedication to our customers.*

Craftsmanship

Vigilant's vast array of hand-crafted wood products are manufactured using state-of-the-art equipment in our state-of-the-art facility. We have dedicated over 25,000 square feet of our facility to our craft. Our craftsmen are highly skilled and highly trained. The principle values and unique style that each individual brings to the table provides Vigilant with the assurance that our products are unmatched in the industry.

Lasting Quality

Vigilant is dedicated to making sure that each cabinet, wine cellar rack, end table, or any other product we produce inherently possesses a degree or grade of excellence that is only found in a Vigilant product. We spend each and every day checking and rechecking the quality of every piece of equipment and every product this equipment produces. We do this to assure our customers that lasting quality is an essential aspect of every creation here at Vigilant.

Exceptional Design

The creation of any wine cellar starts with the design. Our highly trained, expert staff of computer aided designers (CAD), apply different styles and techniques in the creation of every wine cellar, or custom cabinet. Their ability to see the end product helps to provide our customers with creations they may have only dreamed of. Vigilant renderings combine elements of personal style and taste with classic nuances of New England historical charm and sophistication. These elements combine effortlessly in each drawing and are displayed simply and classically for our customers.

Protecting Your Passions

Dedication to our Customers

The pillar of how we operate our business is our dedication to our customers. To understand the needs and desires of our customers is both a science and an art. Our customers are the cornerstone of all that we do and everything Vigilant hopes to achieve.

Our Products

All of the cigar humidors, wine cellars, and gun cabinets that are labeled with the Vigilant trademark are made with the highest quality materials, craftsmanship and technology available. We manufacture our products on the Seacoast of New Hampshire where a legacy of strong values and dedicated employees allows us to deliver to our customers some of the finest wood products in the world.

Since 1995, it has been our mission to carry on that legacy of enduring quality in craftsmanship and design in the making of our wine cellars, wine racks, cigar humidors and gun cabinets. Vigilant has grown tremendously over the years, but we have not lost sight of what is most important – our customers. We take pride in our ability to provide our customers with the best service possible and strive to Protect Your Passions with the most beautiful wood and craftsmanship. We will work with you through the entire process of building the perfect wine racking, cigar or gun storage cabinet.

Vigilant Facts at a Glance

Overview

Vigilant, Inc. is headquartered in Dover, New Hampshire. Lucky to be surrounded by the beauty of the Seacoast region of New Hampshire, the company has provided both commercial and residential wine, cigar, gun and fly-rod storage products worldwide for over 10 years. Many of Vigilant's products started out of necessity for proper storage. The multitude of products on the market were not doing the job necessary to assure that fine possessions such as cigars and wine would maintain their quality over time. Vigilant has made it a priority throughout the company's development to maintain above all else, the quality of the products and their strict adherence to the principle of preservation through proper storage.

The company's slogan is, "Protecting your passions", and Vigilant is dedicated to fulfilling this proposition in total for the benefit of our customers and enthusiasts of fine products worldwide.

Protecting Your Passions

History

The company's origins are in Portsmouth, New Hampshire. In 1995, Vigilant began in the garage of Company President Charles Griffiths. Charlie was disappointed in the lack of proper storage cabinetry for his fine collection of cigars. He decided to build cigar storage cabinets and Vigilant was born. In 1997, sportsmen cabinets for storage of guns and fly rods became a reality. Later, in 1999, the wine craze began and Vigilant made the jump from cigar, gun and fly rod to cigar, gun, fly rod, and wine storage.

The wine and cigar storage solutions Vigilant provides have been nationally recognized and continue to evolve to provide both commercial and residential customers with storage solutions that can adapt to any type of environment or need.
